PROFESSIONAL SUMMARY

Junior Linux / DevOps-focused candidate with hands-on exposure to Linux/Unix administration, Linux commands, file and directory management, permissions, users, processes, basic networking, and Bash/Shell scripting. Also experienced with AWS, Git, Docker, Kubernetes, Jenkins, Terraform, and Ansible. Strong troubleshooting and problem-solving approach with an interest in Linux support, system administration, cloud infrastructure, and automation.

TECHNICAL SKILLS

- **Linux/Unix:** Linux, Ubuntu, Linux system administration, file & directory management, users & groups, permissions, processes, services
- **Linux Commands:** ls, cd, pwd, cp, mv, rm, cat, grep, find, chmod, chown, ps, top, df, du, systemctl
- **Networking:** IP addressing, ports, DNS, HTTP/HTTPS, SSH, connectivity troubleshooting, basic networking concepts
- **Scripting:** Bash/Shell scripting, basic automation
- **Cloud & DevOps:** AWS, Azure, GCP, Terraform, Jenkins, Git, GitHub Actions, Docker, Kubernetes, Helm, Ansible
- **Monitoring & Security:** Prometheus, Grafana, Azure Monitor, Splunk, Kibana, SonarQube
- **Other:** Python, SQL, YAML, CI/CD, Infrastructure as Code (IaC), containerization, cloud deployment

PROFESSIONAL EXPERIENCE

vcube software solutions — DevOps & Multi-Cloud Intern

May 2026 – November 2026

- Gained hands-on experience with AWS and DevOps tools including Git, Jenkins, Docker, Kubernetes, Ansible, Terraform.
- Worked with Linux-based environments for command-line operations, basic system administration, and deployment activities.
- Practiced CI/CD pipelines, containerization, infrastructure automation, and cloud deployment concepts.
- Used troubleshooting and problem-solving skills while working with development and deployment environments.

AICTE / ExcelR Virtual Internship — Business Analytics Intern

January 2024 – March 2024

- Analyzed business datasets to identify trends, patterns, and insights for data-driven decision-making.
- Performed ETL activities by extracting, transforming, and loading data from databases and structured data sources.
- Supported reporting and workflow automation to improve process efficiency and reduce manual effort.

PROJECT

Three-Tier Architecture for AWS DevOps

- Developed and implemented a Web, Application, and Database three-tier architecture on AWS.
- Used EC2, VPC, IAM, RDS, S3, and Load Balancer services.
- Used Ansible for server configuration and Terraform for automated infrastructure provisioning.
- Implemented CI/CD concepts using Git, Jenkins, SonarQube, Docker, and Kubernetes.

• Applied Linux administration and command-line troubleshooting while working with cloud servers.

EDUCATION

Ramachandra College of Engineering — Electrical and Electronics Engineering |2022–25

Sir C.R.R. Polytechnic — Electrical and Electronics Engineering | 2018–2022

CERTIFICATIONS

ChatGPT Certification – Great Learning | Data Structures Certification – Great Learning | C Programming Fundamentals – Coursera | Data Analytics Certification – LinkedIn Learning | Electric Vehicles (EV) Certification – Vihaan Electrics
